FEBRUARY 2019

The David Johnstone Pukemokemoke Bush Trust

C/o Perpetual Guardian Trust ■ PO Box 1375 ■ Hamilton

Dear Friends

Notes from the Chairman of the PMM Trust

Ten volunteers showed. Main jobs were track work under Noel who was mightily pleased with the work done by Nathan and family, Chris and Eli. Gina and Rangers stacked timber for new lean-to to house towed mower then into releasing trees until we sighted some wasps and decided to retreat. So everyone be aware it is wasp season and please let us know if you find a nest. Paper wasps in small paper nests in shrubs and German wasps in ground. It was party time after that with birthday cake from Chris and peaches plums and pears galore. It must be Autumn, the fruit is wonderful again.

Special working bee.

The tow behind mower needs to be out of the container so we need to build a lean-to on the side of the container. We are having a special working bee starting at 8am On Monday next that is **25th February**. Need some hammer hands to help construct. Please reply to Warwick if able to join silvester@hnpl.net

Our next working bee is on Saturday 16th March. You will receive an email reminder nearer the time.
